I'm a hardworking individual with a winning mentality and I always look for creative solutions to difficult challenges. I enjoy using data science to solve business problems.

EXPERIENCE

JUNE 2021

DATA ANALYTICS VIRTUAL INTERNSHIP, KPMG

I was given 3 tasks to complete which are: Performing Data quality assessment [Assessment of data quality and completeness]; Data Insights [Targeting high value customers based on customer demographics and attributes]; Data Insights and Presentation.

MARCH 2021 – APRIL 2021

DATA SCIENTIST INTERN, THE SPARKS FOUNDATION

I had given some tasks to finish like analyzing, making ML models using the data [time series, student data of a class, terrorism, etc]

EDUCATION

2019-2023

BACHELOR OF COMPUTER ENGINEERING [DATA SCIENCE], PRESIDENCY UNIVERSITY

Course work: Data Structures, Algorithms, Databases, Machine Learning, Data Analysis, Data Visualization, Data Mining, OOPS[Java], Python.

2019

HIGHER SECONDARY EDUCATION, NARAYANA JUNIOR COLLEGE

Minor in PCM • Narayana Junior College • Kankipadu, Vijayawada • 68.4%

SKILLS

- Machine Learning, Data Analytics
- Python
- R Language
- Data Visualization
- Databases[MySQL, SQL, PostgreSQL, BigQuery]
- Data Mining

ACHIEVEMENTS

- 3 stars in python on Hackerrank
- Currently working on a project **Fake News Detection**
- Heart Disease Prediction using supervised machine learning
